

# Smartline X Ultra Vacuum

## Evacuation Device

- Extended lifetime
- Capacity
- Lightweight

EN 341 : 2011

## Product description

RESQ Smartline X is in its class the smallest and lightest personal evacuation equipment to its high capacity and size. With a maximum load of 140 kg, maximum descent distance of 200 meters and a total weight of 3.8 kg (200 m), Smartline X becomes unique. With weights from 2 to 3,8 kg, it's easy to carry the equipment attached to the harness to ensure availability in an emergency, wherever you are in the elevated workplace. The Aramid rope has an incredible strength to diameter ratio and has heat resistance over 480 C. Smartline X can even be suitable where the sudden fire appears. We have combined two fantastic solutions into one, the original patented vacuum pack and Smartline X, both with great track records and combined them into one. The vacuum pack has been customized to fit the Smartline X. The result is a smaller and softer pack which can be opened by tearing along the opening seam. We call it RESQ Quick Access. By packing the equipment in vacuum, moisture cannot be present in the package. It's also impossible for the rope and other components to be worn or rubbed against each other. With Smartline X vacuum you only need to inspect the vacuum pack once a year, this enables us to prolong the total lifespan of the product to 10 years, as long as the Smartline X Vacuum pack remains intact. Material shortages due to the pandemic have resulted in the need for Cresto Group to periodically and temporarily replace certain components on our products with replacement components fulfilling the same function. Due to this, the product images may differ from that which is delivered.

## Product properties

Brand	RESQ
Adjustable under load	Yes
Attaching connector 1	Device: Aluminum carabiner tri-lock
Attaching connector 2	Rope/absorber: Aluminum carabiner tri-lock
Descent speed (m/s)	0,5-2m/s
Energy absorber	Yes
Functions	Descend function
Gate opening (mm)	20

Lifting mechanics	Method 1:3
Material	Nylon, Aluminum , Aramid
Maximum descent	200 meter
Maximum load (kg)	140
Maximum number of users	1
Maximum rope length (m)	200
Mechanics	Friction brake
Minimum load (kg)	60
Maximum working temperature (c)	50
Minimum working temperature (c)	-40
Packaging type	Vacuum
Rope	Aramid 5,5mm, 16 twill braid coreless construction
PPE-category	Category 3
Declaration of Conformity	Yes
EN-standard	EN 341 : 2011
Warranty	2 year
Identification	Serial number
Annual inspection	Yes, every 12 months
Life span	10 years
Notified body	0200, FORCE Certification A/S, Main office, Park Allé 345, DK-2605 Brøndby, Denmark
RFID	Yes
